

Dual Camera for Jewel Box X-ray Systems

*Applications include BGA, QFN, Wire Bond Inspection,
Counterfeit Components, Medical Devices, Connectors,
and other packaged devices*

82 mm Diameter FOV Camera

25 mm Diameter FOV Camera

The Dual Camera combines a 25 mm and 82 mm or 25 mm and 100 mm diameter field of view x-ray camera into the camera body. The larger field of view camera (75 or 100mm diameter) allows you to view more of the device in one image (Wide View). The smaller field of view camera (25 mm diameter) allows you to see details as a small crack n 1 mil. wire at higher geometric magnification (Detail View).

Easy-to-use Switches to Quickly Examine Full or Detailed Views of X-ray Images

The Dual Camera feature is available for all JewelBox X-ray Systems cameras.
